The Cohort Program works with Chemistry & Biochemistry, Mathematics, and Physics students to create discipline-based learning communities that last throughout the students' undergrad experience.

**What is it?**

**The School of Physical Sciences**

**Cohort Program**

**Program Highlights**

*Cohort Learning Environment*  
- Take dedicated STEM classes with the same students in your cohort.

*Continuous Mentorship*  
- Receive guidance from experienced students, faculty, and professors

*Research Experience*  
- Get increased opportunities to essential research positions
